

Expertise
& technologies
for Marine

Who are we ?

Anticipating your tomorrow's needs

Created in 2010, ADTS owns a recognized expertise and a know-how in the marine industry.

ADTS represents leading brands and works with innovative manufacturers who are providing reliable solutions to the most specific requirements. The only goal is our customers satisfaction.

Know-how in the marine industry

Our only target is the total customer satisfaction : That is why understanding and analyzing your needs is at the first step of our global technical support.

Our sales team offers a tailor-made expertise for perfect service.

Our design office is also ready to assist you in your most specific requirements.

ADTS is committed to distribute a full range of marine products in order to provide a full package service.

Our constant interest in standard and innovative solutions enables us to offer you a high performance products.

Audit & technical support

Identification on site

We work on your requests closely with your design office, technical and purchasing departments.

Refit : We get on board and carry out the inventory of the piping systems to be refit.

Analysing & project management

We analyze your project and offer tailored solutions to meet your needs and your technical issues regarding valves and pipe fittings.

We meet your requirements on innovations, quality, deadlines, costs and certifications.

Our engagements

Environment

Developing without degrading is now a priority.

This commitment means strong action to reduce our environmental impact in the short, medium and long term to reduce the climate changing.

Quality

ADTS works to understand the needs and expectations of all its customers.

Our products are tested under certification procedures, fully complying with the required standards. Our team is trained to apply quality on their daily work.

Ethic

Respect, Professionalism and Transparency are at the motus of ADTS' daily activities. We attach great importance to bring these values in our relations with our team, suppliers, customers, partners and shareholders.

By this implication, ADTS acts to ensure the company's long-term growth and develop its employees prouddness and team spirit.

A certified range of technical equipments.

The valves and pipe fittings are supplied on time with labels and certifications in accordance with our agreements.
